

## Start AutoCAD and Modeling separately.

After installing InteriCAD, the default profile of AutoCAD will be replaced by InteriCAD. Follow the steps below, to restore the AutoCAD menu:

1. Right click on the shortcut of AutoCAD and select Properties.
2. Add “<space>p<space>acad” at the end of Target content, and click OK button.
3. Start AutoCAD again and a prompt will appear.

Just click OK button.

**Note:** you don't need to perform this operation for version higher than AutoCAD2006.
